Strategic Planning

MARK EIMER

CREATIVE

About us

We are Eimer Creative, a professional marketing and branding agency based in the Kansas City area. We are a group of senior marketers that come together to provide strategic branding and marketing solutions for our clients. But unlike other agencies, we only assign the necessary resources to a project based on specific need. We believe that makes us more efficient and more effective.

For this project your team will be Mark Eimer, creative director and Mary Schuler, account director/brand strategist. Both Mark and Mary have worked in marketing/advertising for 30+ years, and bring with them experience working with clients in industries as diverse as healthcare, destination marketing, non-profit and hospitality.

Mission Statement

Our mission is to lead the community of psychologists who, through **research, practice, education, and advocacy**, enhance the wellbeing of people living with **disability or chronic health conditions**

Vision Statements

- ▶ Set the standard of practice for culturally competent, evidence-based, wholistic, and personalized care.
 - ▶ Promote innovative and rigorous research to improve outcomes, services, and organizations, and reduce costs.
 - ▶ Set the standards for education and training in the competencies of rehabilitation psychology.
 - ▶ Be the premier source of psychological knowledge regarding disability and chronic health conditions for healthcare professionals, policymakers, the public, and the media.
 - ▶ Champion disability as a human rights and social justice issues.
 - ▶ Move communities and organizations towards greater access for all in health care, the workplace and public engagement.
- 

- ▶ Executive Board Members
- ▶ Sections
 - Pediatric Rehabilitation
 - Women's Issues in Rehabilitation
- ▶ SIGS
 - Assistive Technology
 - Deafness
 - Psychologists with Disabilities
 - Early Career Psychologists
 - Critical Care
- ▶ Committees – Awards, Communications, CE, Diversity, Education and Training, Fellows, International, Membership, Mentorship, Practice, Program, Science, Student Leadership Network

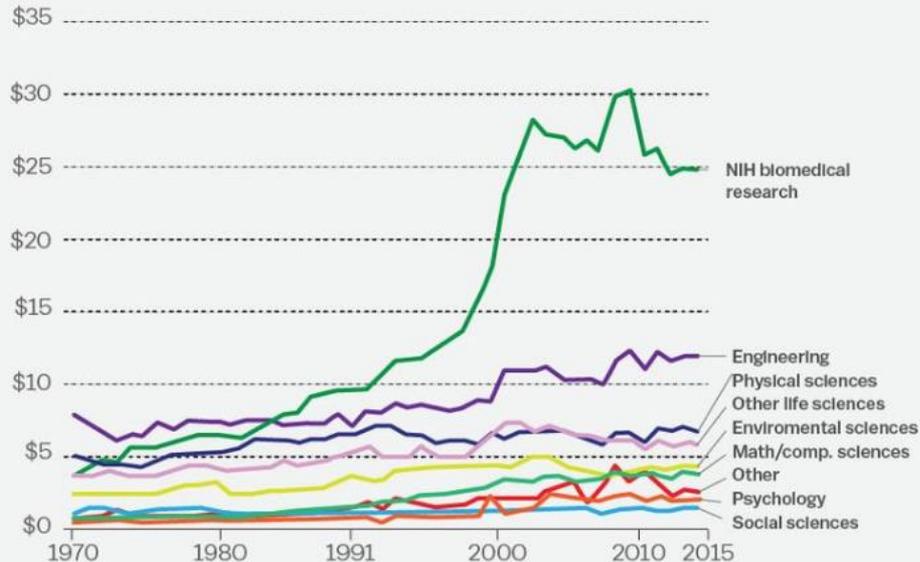

- ▶ The stress of our role, as professionals working with people in distress
- ▶ The demands and importance of clinical and professional responsibility
- ▶ Varied and often quickly shifting role demands
- ▶ The challenge of managing the intimate, confidential and nonreciprocal nature of the client/therapist relationship
- ▶ Isolation in the work context
- ▶ Role characteristics that make psychologists prone to burnout (e.g., responsibility for people vs. things, limited control over outcomes, limited resources, high level of involvement)
- ▶ Vulnerability to vicarious traumatization from empathic engagement with traumatized clients
- ▶ The changing standards in the profession (e.g. decreased support for psychotherapy, an increased intrusion of legal and business concerns into therapeutic practice, increased documentation requirements)
- ▶ The stress related to the business of practice (e.g. decreasing revenue and autonomy, managed care demands)
- ▶ The interactions between personal stresses and the demands of our work
- ▶ Utilizing the person of the therapist as a therapeutic tool
- ▶ The heightened risk of suicide among male psychologists

What Occupational Hazards Do Psychologists in Professional Practice Face?

Trends in federal science funding, by discipline

All figures are represented in billions of 2015 dollars

SOURCE: BMJ/Nature, National Science Foundation, Federal Funds for Research and Development series, AAAS

Vox

"Science, I had come to learn, is as political, competitive, and fierce a career as you can find, full of the temptation to find easy paths." — Paul Kalanithi, neurosurgeon and writer (1977–2015)

Explore the biggest challenges facing science, and how we can fix them:

- 1 **Academia has a huge money problem**
- 2 **Too many studies are poorly designed**
- 3 **Replicating results is crucial — and rare**
- 4 **Peer review is broken**
- 5 **Too much science is locked behind paywalls**
- 6 **Science is poorly communicated**
- 7 **Life as a young academic is incredibly stressful**

Conclusion:

- **Science is not doomed**

Strengths

- ▶ Shared values and cause
 - ▶ Desire to be involved and informed
- 

Challenges

- ▶ Competing demands

Are there other ways of running a Division?

Infrastructure support that will allow psychologists volunteering for the Division to focus on what matters to them?

The Ask

- ▶ Which of the value statements resonates with why you are here?
 - Strategic goals
 - ▶ Which section, SIG, Committee will you be joining to get the work done?
 - ▶ Mentorship
 - ▶ \$\$
